Identification of the substance

MSDS Name: Salt (Sodium chloride)
Synonyms: Common salt; Halite; Rock salt; Saline; Salt; Sea salt; Table salt.

EC / List Number: 231-598-3
CAS Number: 7647-14-5

Identification of supply chain and partner companies

Centrego Ltd

Address:
Centrego LTD, Unit N4, Marshall Way,
Commerce Park, Frome, Somerset
BA11 2FB, United Kingdom

Telephone: +44 (0) 1373470638
Email: info@centregoltd.com

Ineos Hydrosoft

Centrego uses granulated salt sourced from Hydrosoft for the use of all Centrego products listed on the following website: www.centregoltd.com

Hydrosoft product information:
Hydrosoft Granular High Purity Salt
Complies with EN 973 Grade A
H210527, Contains anti-caking agent (E535)
ISO9001, Barcode 5 029427 400137
IS 8014

Hazards identification

Classification of substance
Classification (EC 1272/2008)

Physical hazards, Health hazards & Environmental hazards Not Classified.

Label elements
EC number 231-598-3
Hazard statements NC Not Classified

Other:

This product does not contain any substances classified as PBT or vPvB by the European Chemicals Agency.

First aid advisories

Inhalation

Move affected person to fresh air immediately. Rinse nose and mouth with clean water after checking with the affected person. Seek medical consultation if any discomfort continues.

Ingestion

Never give anything by mouth to an unconscious person. Do not induce vomiting. Rinse mouth thoroughly with clean water. Seek medical consultation if any discomfort continues.

Contact with skin

Rinse immediately with clean water. Remove contaminated clothing or eye wear. Seek medical consultation if any discomfort continues. Prolonged contact may cause redness, irritation and dry skin.

Contact with eyes

Rinse immediately with clean water. Remove any contact lenses and open eyelids wide apart after consulting the affected person. Continue to rinse for at least 15 minutes. Seek medical consultation if any discomfort continues. Show this Safety Data Sheet to the medical personnel. Eye contact May cause temporary eye irritation.

Notes for the doctor - No specific recommendations

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.

Foam, carbon dioxide or dry powder.

5.2. Special hazards arising from the substance or mixture

Hazardous combustion products

5.3. Advice for firefighters

Protective actions during firefighting

Handling and storage

Precautions for safe handling

Usage precautions when lifting as advised during health and safety training.

Provide adequate ventilation to avoid salt gaining moisture.

Avoid contact with skin and eyes.

Occupational hygiene

No specific hygiene procedures are recommended but good personal hygiene practices should always be observed when working with chemical products. Wash at the end of each work shift and before eating, smoking, using the toilet and coming into contact with any other humans or animals.

Conditions for safe storage

Store in a tightly-closed, original container in a dry, cool and well-ventilated place.

Store away from any sources of moisture or chemicals.

Personal protection

Protective equipment is recommended for use with this substance due to the possibility of the effects of any possible reactions or allergies.

To see what protective equipment is available, see your site manager or refer to the health and safety training carried out by your organization.

Eye and face protection

No specific eye protection required during normal use. See your site manager or refer to the health and safety training carried out by your organization.

Hand protection

For users with sensitive skin, it is recommended that suitable protective gloves are worn.

See your site manager or refer to the health and safety training carried out by your Organization.

Other skin and body protection

Wear appropriate clothing to prevent repeated or prolonged skin contact.

Use appropriate skin cream to prevent drying of skin.

Hygiene measures

When using do not eat, drink or smoke. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the worksite. Use appropriate skin cream to prevent drying of skin.

Stability and reactivity**Reactivity**

There are no known reactivity hazards associated with this product.

Chemical stability

Stability Stable at normal ambient temperatures.

Hazardous decomposition

Does not decompose when used and stored as recommended.

Conditions to avoid

Avoid exposure to high temperatures or direct sunlight.

Materials to avoid

No specific material or group of materials is likely to react with the product to produce a hazardous situation.
